Special Events are anything that happens outside the home or office. This covers any kind of equipment needed for elections, festivals, concerts, sporting events, launches, promotions, funerals, fashion shows, exhibitions, community functions, and auctions. These events are normally unique and often take place in unconventional environments that require a specialised degree of planning and preparation.

"They are very approachable, nothing is a problem, what they do they do it well - their product is very good, it turns up on time & it's always clean!"
Jason Colbert, Bitesize.
